

Good Design for Superior Living

舒曼设计

Schumannndesign

Germany 德国

Schumannndesign has been working since 1992 in the field of strategic design consultancy and classic industrial and product design in many areas of both consumer and investment goods industries including communications technology, sanitation, energy and medical equipment, and plant engineering. The agency's special competence lies in the development of innovative product concepts that optimally fit in the market segments of its clients, communicate their product and brand values, accentuate the corporate identity and, through their timelessness, offer strong added value through long product cycles.

Focal Areas:

Product design concepts, brand aesthetics, design development, product lines, production process support

Awards:

Comfort & Design Award (Milan), Design Plus Award, Designpreis des Landes Nordrhein-Westfalen, Deutscher Designer Club, European way(s) of life, Focus Gold, G-Mark (Tokyo), Good Design Award (Chicago Athenaeum), ID-NL Jaarprijs, iF Design Award, Minister of International Trade and Industry Gold Prize Osaka, Plus X Award, Red Dot Design Award: Best of the Best

Clients (selection):

British Petrol, Immergas Italy, Magnüs/Olympus India, Phono Solar, QC1, Rittal/German Telecom, Schüco Solar, Soft Imaging System/Olympus, Stiebel Eltron, Waeco International/Mobicool Hong Kong

DHE Connect & DHE Touch redefine the possible applications of an instantaneous water heater of everyday equipment in an extraordinarily comfortable and state-of-the-art manner. The central feature is a logical and innovative user interface. The unity afforded by the touch display and touch wheel make the use of the equipment intuitive. DHE Connect can be easily connected by Wi-Fi to the domestic Internet network, thus allowing Internet radio to be listened to on the built-in speaker and weather conditions to be seen on the colour display. Furthermore, the supply of hot water may be initiated using an app on your smartphone. This instantaneous water heater supplies hot water at exactly the right temperature using the powerful and highly efficient 4i technology. The control element can be detached for use away from the equipment.

DHE Connect & DHE Touch重新定义了现代热水器，使得生活中持续的热热水供应变得格外舒适。它的核心特征是富有逻辑和创意的用户界面，使用者可以通过触摸屏和触摸转轮直观地使用。DHE Connect可以非常方便地连接到家用Wi-Fi网络，以通过它的内建扬声器播送广播，或通过彩色屏幕查看实时天气。此外，热水供应可通过智能手机上的应用进行管理。它的即时加热器采用强大的4i技术，能迅速准确地提供所需温度的热水。控制部分也可拆分，以供遥控使用。
